

ADW-RC 滚筒模切机

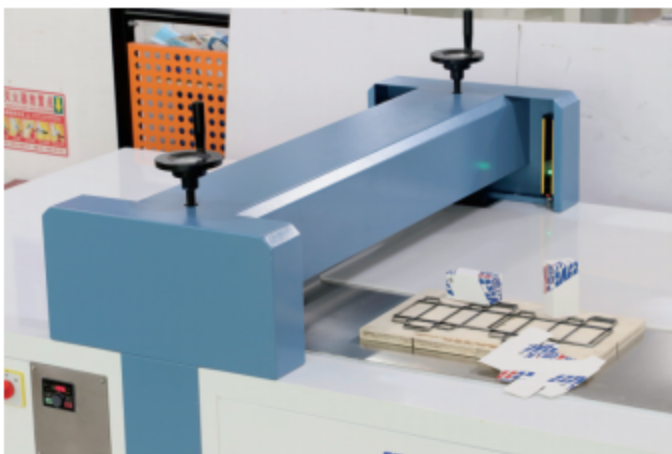

ADW-RC Roller Die Cutter

操作简便
Easy Operate

安全感应器
Safety Sensor

上下滚筒，压力均匀
Uniform Pressure

样品
Sample

ADW-RC 滚筒模切机

ADW-RC Roller Die Cutter

技术参数 Technical Parameters

功能 Function	通过上下两个滚筒，将刀模板和卡纸一次滚压成型。 检查刀板是否有缺陷。 Roll the die board and cardboard through the upper and lower rollers. To check the cutting effect of the die boards.
气压要求 Air Supply	0.4-0.8MPA
电源要求 Power Supply	单相Single Phase 220V,13.6A,50-60Hz
机器功率 Total Power	1.5KW
机器重量 Weight	500kg
机器尺寸 Dimension	1510*1310*1150mm (LxWxH)
海关编码 HS Code	84688000

机器特点 Features

- 1.操作简便，经济实惠，代替昂贵的模切机，对刀模板进行出厂检测；
- 2.上下滚筒同时受力，压力均匀；
- 3.采用大功率减速电机，力量稳定；
- 4.安装四个感应器，安全性高。

- 1.Easy to operate, cost-effective, replacing expensive die-cutting machines, easy to check the cutting effects of die boards.
- 2.The upper and lower rollers are subjected to force simultaneously, with uniform pressure.
- 3.Adopting high-power deceleration motor, stable pressure.
- 4.Install four sensors, more safety for use.
